Electric Autoclave Steam Sterilizers

This Autoclave is a strong heated container used for chemical reactions and other processes using high pressures and temperatures e.g. steam sterilization

Features:

1. High-quality Sterilizing Electric stainless steel
2. Overpressure auto -
3. The highest working temperature: 126°C
4. Dual scale numerical pressure gauge indicate temperature and pressure
5. Operating easy, security and reliable
6. Silicone seal Safety protection: Over heat protection.

| Chem Tech Autoclave | | | |
|---------------------|---------|--------|--------|
| Model | ACT.20 | ACT.35 | ACT.75 |
| capacity | 20 L | 35 L | 75 L |
| Max Temp | 126°C | | |
| Pressure | 1.5 par | | |
| Dimentions | 45x65 | 45x105 | 65x130 |
| voltage | | | |
