Single distilled water apparatus

- * The CHEM.TECH single distillation apparatus is made of high-quality stainless steel, with the ability of producing 2 to 2 liters of high quality distilled water free of minerals and impurities.
- * Provide safety systems to protect the heater in the absence of water for cooling.
- * Easy to use, clean and maintain.

Features:

- 1- classic control type.
- 2- Float switch.
- 3- Contain one heater.
- 4- External: coated with electrostatic.
- 5- Internal: stainless steel 304.
- 6- Economic, low electricity use.
- 7- All spare parts are available a large amount of distilled water.
- 8- Safety: thermostat and low water level & over heating cut-out.
- 9- Evaporator room easily accessible for cleaning purposes.
- 10-Coil-type condensation structure with cooling effect produces
