

Chem-Tech

oven

CHEM.TECH Dry heat oven is used in many applications. Generally, the temperature range is from 50 to 300 degrees Celsius. There is a temperature control thermostat.

Process applications for laboratory ovens can be for drying, Polyimide baking, sterilizing, and other industrial laboratory functions.

Features

- 1- LCD digital display enable users to monitor the chamber temperature at any given time.
- 2- Ability to set operating time of heater.
- 3- Temperature range from ambient temperature to 300°C.
- 4- Safety: Visual and auditory alarm indicator alerts users of temperature abnormal conditions.
- 5- External: coated with electrostatic.
- 6- Internal: high quality stainless steel.
- 7- removable Racks.
- 8-Easy cleaning and optimal airflow.
- 9-Keyed on/off switch.
