

- Adopts imported vacuum pump with advantages of high power, uniform liquid dispensing, long lifespan.
- With automatic wakeup on standby function so as to minimize noise and power
- Material of cleaning solution bottle is polycarbonate transparent, which can be highly temperature sterilization to avoid pollution by mould

Catalog No: INS28-CA-200

Microplate Washer

Catalog No: INS28-CA-200

Microplate Washer

Technical Specifications

- Intended for 96,48,24 well ELISA board
- Wash head : 8, 12 probe; standard with 2 wash heads
- Wash times : 1—20 time
- Wash row : 1—12 row
- Soak time : 1200s
- Dead volume of cleaning solution : $\leq 1\mu\text{l}$ / well
- Liquid dispensing volume can be adjusted continuously
- Stop running at any time
- Automatically balancing wash head
- Memory 100 self-define washer programs
- Wash head can be disassembled to clean
- 5 kinds of washer mode
- 5 kinds of board oscillation mode
- With overflow prevention function
- Position of liquid aspiration can be adjusted
- Distance between two points can be adjusted
- Liquid aspiration time of last time can be adjusted
- Speed of liquid dispensing and liquid aspiration can be adjusted
- With single aspiration function
- Elisa board with flat, V-shape, U-shape bottom can be cleaned
