

SPECTROPHOTOMETER

Precise Monochromator precise 1200 lines/mm high quality grating
2nm spectral bandwidth instrument test data,
imported original light source.
Precise wavelength system
Imported Silicon photocell
128*64 LCD monitor display
Automatic wavelength calibration,
automatic wavelength setting
The sample chamber can hold 5-100mmde cuvette

**PROLAB
SPECTROPHOTO
METER**

Instrument model	721
Wavelength range	330~1020nm
Spectral bandwidth	4nm
Wavelength accuracy	±2nm
Wavelength repetitive	1nm
Luminosity range	0-125%T, -0.301-1.999A/0-3A, 1-1999C
Photometric accuracy	<±0.5%T
Photometric repetitive	0.5%T
Stray light	≤0.6%T
Display mode	3 ^{1/2} LCD
Power	AC 85V-263V 45Hz/63Hz
