

Chem-Tech

MUFFLE

A chem tech Muffle is an oven used for Research applications in which a sample is subjected to high temperatures to determine what proportion is non-combustible and non-volatile

Features

- 1- Digital Control Panel.
- 2- Ability to set operating time of heater.
- 3- Temperature range from ambient temperature to 1000°C.
- 4- Safety: Visual and auditory alarm indicator alerts users of temperature abnormal conditions.
- 5- External: coated with electrostatic.
- 6- Internal: high quality Thermal Bricks.
- 7-Easy cleaning and optimal airflow.
- 8-Keyed on/off switch.
- 9-Thermal insulator

Chem Tech Muffle			
Model	MCT.6	MCT.8	MCT.10
Capacity	6L	8L	10L
Max Temp	1000 ° C		
Internal size(LxDxH)	150*200*200	200*200*200	200*250*200
External size(LxDxH)	410*420*580	460*420*580	460*465*580
Voltage	220
