

Water Distiller

WD51

Specification

Power supply	230VAC± 10%, 50Hz /10A, 110VAC
--------------	--------------------------------

Power	750W
-------	------

Machine sizes	200*290*390mm
---------------	---------------

Inner chamber	Diameter 180*D200mm
---------------	---------------------

Control type	Full automatic microprocessor
--------------	-------------------------------

Quantity of distiller water	1.5L/H
-----------------------------	--------

Packing	4pcs/CTN
---------	----------

Packing size	60.5*52*47.5
--------------	--------------

N.W	17KG
-----	------

G.W	21.5KG
-----	--------
